AURORA FIREWORKS

“The co-ordination
and attention to detail
were brilliant...”

We are still dazzled
by the size and coverage
of the sky.”

THE **AURORA** EXPERIENCE

Aurora Fireworks is a family-run business, launched by Robert Byles in 1996. Robert has over 20 years experience with pyrotechnics, and has conducted displays all over the UK.

The company has gone from strength to strength, conducting hundreds of shows a year, from weddings to corporate functions to traditional public bonfire nights.

Robert Byles has passed his passion for fireworks to his son, Stephen, who is Technical Director and has achieved a Fire & Safety Management BSc and Fire & Explosion Engineering MSc. This gives Aurora the expertise to carry out firework displays in very demanding locations, such as on the roof of the tallest residential building in the country, The Manchester Hilton.

With skill and imagination, Aurora's team create shows to suit both venue and client. In addition, a display will be handpicked to compliment the venue and surroundings to highlight, for example, a lake or an ancient building - thus ensuring that the spectators will be left with a very special experience to remember.

When planning displays a site visit is conducted before every event and this is followed by the production of an aerial picture showing boundaries, spectator areas, firing positions and similar.

All Aurora's retail and professional fireworks fully conform to the relevant British Standard specifications and HSE classifications. Aurora are members of the Explosive Industries Group (EIG).

PUBLIC DISPLAYS

From traditional November 5th Bonfire Night shows to New Year's Eve displays and Summer music festivals and carnivals, Aurora will provide the perfect finale to your public celebration.

We have a range of technologies which enable us to fire impressive shows accompanied by recorded music and synchronised light. We have also created dramatic firework displays to live music, for example, performing alongside the Royal Philharmonic Orchestra at Ewhurst Polo Ground, Surrey.

Our expert team is well briefed in achieving, within strict safety guidelines, an appropriate style to suit the event and consideration to the public is always uppermost in our mind. All our professionally fired displays are covered by £10 million public liability insurance.

We operate a cleaning system to collect firework debris following the display.

From traditional parks to the tops of buildings, we hand pick each display from our huge range of fireworks to suit the location, so you can be guaranteed a unique and dramatic experience every time.

If you would like to discuss your requirements or have any queries, please contact our Display Team Manager 0800 975 6573

CORPORATE EVENTS

Guaranteed to add an extra dimension to your product launch, gala dinner, employee event or building opening, Aurora's stunning firework displays will inspire and captivate your audience.

We have worked alongside such clients as PPP Healthcare, Royal & Sun Alliance, The Financial Times and Novartis Group, creating memorable displays to reflect their corporate identities and ethos. In the construction industry "topping-out" ceremonies are enhanced by dramatic displays - as was the case with the technically demanding 50 storey, 171 metre Manchester Hilton and Liverpool's 40 storey Beetham Tower.

From creative concept through to completion, Aurora Fireworks provide the full package and make the experience trouble-free. An initial site visit is followed by firing plans, timings and risk assessments to ensure clients are fully informed of every aspect of the show. All our professionally fired displays are covered by £10 million public liability insurance and the pyrotechnics conform fully to the relevant British Standards.

Add impact to your event and dazzle your audience with a spectacular display, culminating with your company name, logo or product name depicted using colourful lancework.

MUSIC & LIGHT SHOWS

Music adds an extra dimension to any firework display, and with our public address (PA) system you can have a show accompanied by music ranging from classical to film soundtracks to contemporary.

Taking this up a level, there is the ability to have your display scored to music using our state-of-the-art firing system. Accurate to 0.001 of a second over a distance of up to 3km, the equipment responds to over 1200 individual cues and each of these cues can fire some 300 igniters simultaneously.

Our "Spaceflower" spotlight* provides a dizzying dance of white oscillating light to brighten up the sky and can be seen from up to five miles away!

In addition, our white or multi-coloured atmospheric spotlights* can illuminate buildings or cover any large area. They may also be synchronised with music using our DMX light controller and public address systems.

* Spaceflower and atmospheric spotlights are available for hire, in addition to a firework display.

If you would like to discuss your requirements or have any queries,
please contact our Display Team Manager 0800 975 6573

WEDDINGS

When it comes to your wedding day, Aurora Fireworks ensure that your display is a memorable, magical finale to the celebration, both for you and your guests.

On such an occasion it is essential that this special event runs smoothly, which is why we take care of everything from creative concept through to clearing up firework debris afterwards.

We are dedicated to achieving the display of your dreams and pride ourselves on offering a bespoke service, at a competitive price, to compliment your chosen location.

Aurora are able to choreograph fireworks to synchronise accurately with your favourite piece of music, which adds an extra dimension and makes the display even more personal.

For the ultimate grand departure from your venue, we offer the "Driveway Rain" package – plumes of gold or silver fountains that line a driveway and produce a spectacular cascade. This is increasingly popular and makes for a magnificent, dramatic exit at the end of the evening.

QUIET FIREWORKS

In response to a number of our clients' requests, Aurora have carried out extensive research to source low-noise fireworks that still provide a spectacular display.

Whilst it is impossible to get totally silent fireworks the low noise range that we utilise allows for delicate yet dazzlingly impressive displays. These have proved exceptionally successful where environmental concerns preclude the use of traditional noisy fireworks - such as in residential or protected areas or locations close to livestock.

By law firework displays must finish by 11.00pm, with exception of November 5th, New Years Eve and during religious festivals.

Please be aware that some venues have imposed firework "curfews" to avoid upsetting neighbours and it is important to discuss this prior to making an itinerary for your event.

PAPER LANTERNS

Delicate paper lanterns provide a serene and enchanting alternative to the excitement and noise of a traditional firework display.

Mesmerising when a number are released simultaneously into the night sky, these lanterns are easy to use with full safety instructions on each sleeve. They comprise a waxed, flame-retardant paper balloon, approximately 60cm tall, with a bamboo hoop at the bottom to which a fuel cell is attached. The product is biodegradable and flame-retardant.

CONFETTI CANNON

Using high-powered BigBlaster and MiniBlaster confetti cannons, we can flood any area with a cloud of confetti in a matter of seconds.

Combine this with BigShots, firing fountains of streamers, and you've got a photo opportunity that captures all the emotion and excitement of the moment.

CLIENT TESTIMONIALS

Aurora's spectacular displays and dependability are reflected in the sort of testimonials we hold on our files. These are just a few of them:-

'We stage many public events where our reputation is largely dependent on the professionalism of our suppliers. When it comes to fireworks, Aurora are in a class of their own... innovation, attention to detail and value for money instill total confidence... we would recommend them without reservation to anyone planning a display and looking for that extra special ingredient.'

PHILIP PRIDE – LINGFIELD PARK RACE COURSE

'Thank you so much for your amazing Firework display it was the icing on the cake to the most perfect day. Everybody was blown away by the fireworks they were beautiful. Again thank you so much for coming down and providing such a wonderful show for us.'

KARLY & DUNCAN – LONDON

'Thank you for "topping off" our celebration with such a fantastic display. We appreciate all your hard work and effort.'

GAIL MOGLIONE – BEETHAM ORGANISATION

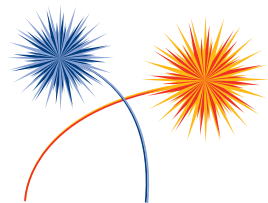

'Your display was absolutely fantastic at our wedding. We would be happy to recommend your services. Very high quality and very accommodating with being close to the airport etc. We also would like to say how discreet you were on the day and you didn't give the game away!!!! Again thank you very much for making it a special end to a perfect day for us.'

MARK & MEL – BOURNEMOUTH
